About Us

BigJoe Codes is a dynamic tech company dedicated to revolutionizing digital experiences through innovative solutions. With a team of seasoned professionals, we specialize in various aspects of technology, catering to diverse client needs worldwide.

MISSION

Our mission is to guide tech journeys and empower innovation by providing cutting-edge solutions and fostering a culture of continuous learning and growth.

VISION

We envision a world where technology serves as a catalyst for positive change, enhancing efficiency, connectivity, and creativity across all industries.

Company Objectives

- To deliver exceptional quality and value to our clients through tailor-made tech solutions.
- To cultivate a supportive environment that encourages creativity, collaboration, and professional development.
- To stay at the forefront of technological advancements and adapt quickly to emerging trends.
- To foster long-term partnerships with clients, built on trust, integrity, and mutual respect.

Our Services

Web Design & Development

Transforming ideas into visually stunning and highly functional websites, our team specializes in crafting custom web solutions tailored to each client's unique needs, ensuring seamless user experiences and optimal performance across all devices.

High Tech Supplies

Offering a comprehensive range of high-quality tech supplies, we provide cutting-edge hardware and software products sourced from trusted suppliers, guaranteeing reliability, performance, and compatibility for all your technological needs.

Graduate Internships Program

Our graduate internships program offers aspiring tech professionals hands-on experience in real-world projects, mentorship from industry experts, and opportunities for skill development, preparing them for successful careers in the ever-evolving tech landscape.

Coding Training

Empowering individuals with the essential coding skills needed to thrive in today's digital age, our coding training programs cover a wide range of languages and frameworks, delivered through interactive sessions and practical exercises to facilitate effective learning and mastery.

Educational Consultancy

Partnering with educational institutions, we provide strategic consultancy services to enhance their technological infrastructure, curriculum development, and teaching methodologies, enabling them to stay ahead in preparing students for the demands of the modern workforce.

Applications Development

From concept to deployment, we specialize in developing custom applications tailored to meet specific business objectives, leveraging the latest technologies and industry best practices to deliver intuitive, scalable, and secure solutions that drive growth and innovation.

Management Systems

Streamlining organizational processes and workflows, our management systems offer comprehensive solutions for project management, customer relationship management (CRM), inventory management, and more, empowering businesses to optimize efficiency, productivity, and decision-making.

Online Payments/VISA Integrations

Facilitating seamless online transactions, our expertise in online payments and VISA integrations ensures secure, reliable, and user-friendly payment processing solutions, enabling businesses to expand their digital footprint and enhance customer satisfaction.

Point of Sales

Enhancing retail operations with intuitive point-of-sale (POS) solutions, we offer customizable systems that streamline transactions, inventory management, and customer interactions, empowering businesses to improve sales, efficiency, and customer loyalty.

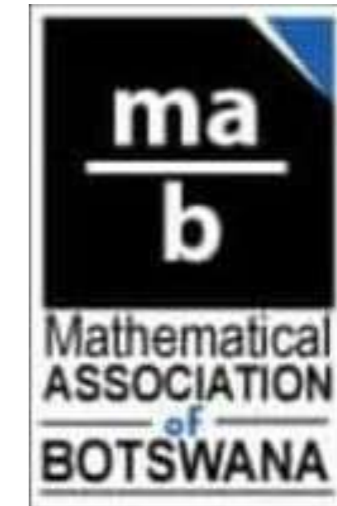

Security Devices Installation

Safeguarding assets and premises with advanced security solutions, we specialize in the installation and integration of vehicle tracking systems and closed-circuit television (CCTV) surveillance, providing peace of mind and proactive protection against security threats.

Our Portfolio

Our diverse portfolio includes collaborations with leading corporations, startups, educational institutions, and government agencies. Some of our notable clients include Botswana Association for the Deaf, Goo-Moremi Gorge, Fearless Fitness Group, Mathematical Association of Botswana, and Pan African Scrabble Association.
